

EXPEDITION OUTBACK™

THE EXPERIENCE

Set in the outback of Australia, the annual Royal Exposition is about to begin. The Royals are looking for independent teams of Overlanders to bring to the Expo wealth of all kinds – in particular, Kangaroos.

In Expedition Outback™, teams compete against each other to gain the most wealth for their team as they travel from Home Base to the Royal Exposition. To accomplish this, teams must visit “shady suggestion sites” where they will find opportunities in the form of information cards. However the Outback can be perilous and superior execution is critical to success. The objective of this experience is to maximise the team’s wealth by optimising the opportunities presented to them on their way to the Royal Exposition.

THE DETAILS

Overview

In Expedition Outback™, participants take part in a high-energy, high-impact learning experience designed to help them identify, refine, analyse and implement the various business opportunities with which they are presented. Individuals discover the powerful relationship between information and execution and the impact each has on superior results.

Powering Performance Through Learning™
